TREMONT MILLS.

Coffees, Chocolates, Cocoas, Spices, &c.

[WHOLES]ALE—AND ALSO IN SMALL PACKAGES

[G.] E. DYER & CO.,

[Proprietors] of the Chinaman grinding Coffee, [... Br]oad, near State Street, ... Boston.

Supply the best, finest and purest articles, at the lowest Cash prices. Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum or Prepared Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on [getting t]hem pure and genuine, as they are put up [by us], and bear our name and label, "TREMONT MILLS, G. E. DYER & CO." To give [custome]rs some idea of our sales, we annex the [followin]g scale of prices, viz:

[Oo]long Tea, 1,75 5lb. Mocha Coffee, 1,18
[Youn]g Tea, 2,00 5lb. Java Coffee, 1,00
[H]yson Tea, 2,50 5lb. good Coffee, 1,00

[T]he Spices are put up in ¼ and ½ lb. tin canisters [exp]ressly for family use, and are warranted to [suppl]y a pure article, and only need a trial to [establis]h them in public favor.

[SPA]NISH COFFEE.—We would call the attention of consumers and dealers to our Spanish [Coffee] as an article which is highly esteemed, and [gives th]e greatest satisfaction. It is prepared [with pa]rticular care, and by a peculiar process in [roasting], one pound of this coffee, it is believed, is [equal t]o 1½ lbs. of any other.

[DAN]DELION COFFEE.—This article is carefully prepared at our mills, and put up in packages bearing our trade mark, and may be relied upon [as the] best and most approved mixture of dandelion [and] coffee.

[T]AXACUM, or Prepared Dandelion Root. [This a]rticle is prepared and roasted at our Mills, [and so]ld by Family Grocers generally in city and [country], and bearing our trade mark, "Chinaman [grindin]g coffee," may be relied upon as the genuine [art]icle. The proportion used is about one half [the qu]antity of coffee. The price is 20 cents per [pound], and it is warranted to be the same as that [which] has been sold for fifty cents a pound by [druggi]sts.

[The] medical properties of Dandelion are well [known], and held in high estimation by all who [use it]. This being a preparation of the root, with [its m]edicinal virtues retained, can be mixed [with c]offee or not, as best suits the taste, and will [be fou]nd cheap and economical as a family beverage, [on]e pound of which being nearly equal to two [pounds] of coffee. It is prescribed by many eminent [phy]sicians, to invalids, children and aged persons, [as a] nutritious beverage, and as a remedy [for dys]pepsia, Bilious affections, &c.

[B]e careful to observe that all our Taraxacum [bear]s our trade mark—"Chinaman Grinding [Coffee"]—as there are many imitations of our article, called Taraxacum in the market.

[To] Grocers and Dealers a liberal discount is [made], enabling them to supply their customers at [the sa]me low rates.

[CASH] PURCHASERS.—Our object being [to sec]ure large sales at small profits, we offer [induce]ments which cannot be afforded by those [doing] business on the credit system; and we [respectfu]lly invite an examination of the quality [of our] stock, and our prices, as compared with [those of] any other house.

[Am]erican & Foreign Patents.

[R.] H. EDDY,

Solicitor of Patents,

[Late] Agent of U. S. Patent Office, Washington, under Act of 1837.

[76] State Street, opposite Kilby-st.,

BOSTON.

[AFT]ER an extensive practice of upwards of [tw]enty years, continues to secure Patents in [the U]nited States; also in Great Britain, France, [and ot]her foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings [for Pa]tents, executed on liberal terms, and with [despat]ch. Research made into American or Foreign [wo]rks, to determine the validity or utility [of Pat]ents or Inventions—and legal or other advice [re]ndered in all matters touching the same.—[Copies] of the claims of any Patent furnished by [remitt]ing One Dollar. Assignments recorded at [Wash]ington.

Agency is not only the largest in New [Englan]d, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not [immeas]urably superior to, any which can be offered them elsewhere. The testimonials below [will] prove that none is MORE SUCCESSFUL [AT T]HE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF [OF A]DVANTAGES AND ABILITY, he would [add th]at he has abundant reason to believe, and [can p]rove, that at no other office of the kind are [the ch]arges for professional services so moderate. [The im]mense practice of the subscriber, during [twent]y years past, has enabled him to accumulate a vast collection of specifications and official [decisi]ons relative to patents. These, besides his [extens]ive library of legal and mechanical works, [and fu]ll accounts of Patents granted in the United [St]ates and Europe, render him able, beyond [questio]n, to offer superior facilities for obtaining [Paten]ts.

[All] necessity of a journey to Washington, to [procu]re a patent, and the usual great delay there, [are h]ere saved inventors.

TESTIMONIALS.

"[D]uring the time I occupied the office of Commissioner [of Pa]tents, R. H. Eddy, Esq., of Boston, did business at [the Pa]tent Office, as Solicitor for procuring patents.—[There] were few, if any, persons acting in that capacity [who h]ad so much business before the Patent office; and [there] were few who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best [informe]d and most skillful Patent Solicitors in the United [States], and have no hesitation in assuring inventors that [they c]annot employ a person more competent and trustworthy, and more capable of putting their applications [in a fo]rm to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

[From the present Commissioner.]

"[Nove]mber 17, 1855.—During the time I have held the [office] of Commissioner of Patents, R. H. Eddy, Esq., of [Boston], has been extensively engaged in the transaction [of bus]iness with the Office, as a Solicitor. He is thoroughly [acqu]ainted with the law, and the rules of practice of [the Off]ice. I regard him as one of the most capable and [succes]sful practitioners with whom I have had official [inter]course.

[T]HE LUXURY AND PROFIT OF [H]ONEY MAKING.

Torrey's Bee Hive.

[TH]E subscriber, having purchased the right of [ma]king and selling Davis' Patent Bee Hive [in th]e Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much [favor], and taken the first premiums wherever exhibited, has introduced an improvement into the [h]ive and is now prepared to make the same [in co]nnection with the Davis Platform, and to [sell r]ights to towns and individuals.

[Th]is Bee Hive, thus improved, is admitted by [all] acquainted with the honey-making business to be superior to every thing yet invented [for th]e purpose. It covers all the requisitions for [the pr]ofitable maintenance of the apiary, by providing for ventilation at all seasons of the year—[and] for the exercise and feed of the bees—convenience for the removal of excrement, for the [eas]y separation of the swarms, and generally for [the h]ealth and comfort of the workers.

[The] boxes used in this Hive for storing honey, [are th]e best adapted in their size, for the market, [holdi]ng from three to six pounds each.

[The] subscriber wishes to purchase one hundred [swarm]s of bees in exchange for bee hives and [individu]al rights.

For sale, fifty swarms of Bees, with the [hi]ves.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE. TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case. (Sold by Dr. H. A. BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 157 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 4 o'clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c. all physical impediments vanish like magic before its influence, thus rendering its use invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copavia and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESEMAR No 3—Is the great European remedy for that class of disorders which unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. Sold in tin cases and divided in separate doses, as administered by Valpeau, Lalleman, Roux, Ricord, &c. &c. Price $3 each, or four cases in one for $9, which saves $3; and in 27 cases, whereby there is a saving of $9.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three dollar cases sent as usual, but not free of carriage.

SUBSCRIPTIONS to all Serial Publications rec'd by C. R. PATCH.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs, and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent, for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$20 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$20 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths: 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

500 Agents Wanted.

A Homestead for $10.

THIRD DIVISION.

$10.000 WORTH OF FARMS & Building Lots, in the Gold Region of Culpepper County, Va., to be divided among 10,200 subscribers, on the 7th of December, 1857. Subscriptions only ten dollars down, or fifteen dollars, one half down, the rest on the delivery of the deed. Every subscriber will get a building Lot or a Farm ranging in value from $10 to $25,000. These FARMS and LOTS are sold so cheap to induce settlements, a sufficient number being reserved, the increase in the value of which will compensate for the apparent low price now asked. Upwards of 1350 Lots are already sold, and a company of settlers, called "the Rappahannock Pioneer Association," is now forming, and will soon commence a settlement. Ample security will be given for the faithful performance of contracts and promises.

Nearly 45,000 acres of land, in different parts of Virginia, now at command, and will be sold to settlers at from $1 up to $500 per acre.—Unquestionable titles will in all cases be given.—WOOD CUTTERS, COOPERS, FARMERS, &c., are wanted; and

500 Agents to obtain subscribers, to whom the most liberal inducements will be given. Some Agents write that they are making $200 per month. For full particulars, subscriptions, agencies &c., apply to E. BAUDER,

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore with confidence, recommend it to the public as the best article in the market!

Chilson's New Cone Furnace.

PATENTED IN

America, England and France.

THE thorough and highly satisfactory trial of a large number of

CONE FURNACES,

in use during the last cold winter, has proved this an invaluable invention, which far surpasses all plans before known for the purposes of heat. The manner of holding, of keeping back the smoke and gases in a cluster of cones (or radiators) near the fire, into which the formerly wasted products of combustion are retained and completely consumed. The consequent unparalleled economy of fuel, and great heating power, combined with simplicity and ease of management and its solidity, strength and durability, is working a complete revolution in the science of housewarming, despite the interested efforts made by persons whose pecuniary interests are being affected by its general use. We are satisfied that all who can see or obtain correct information concerning the Cone Furnace, will not be likely to use any thing else.

This Furnace has received the highest commendations from all, and especially from persons of the greatest scientific knowledge in such matters. It received the First Premium, and the only gold medal Premium awarded a Furnace in this State, at the last Fair of the Massachusetts Mechanic Association held in Boston. We have, as usual, a full assortment of Chilson's well known Trio Portable Furnaces, and Trio Stoves, Cooking Ranges, Mantels, Grates, Registers, Ventilators, &c., and continue to give personal attention to erecting Furnaces, Ranges and the ventilation of buildings in every part of the country.

STATE OF MAINE.

EXECUTIVE DEPARTMENT, }
Augusta, Nov. 30, 1857. }

An adjourned session of the Executive Council will be held at the Council Chamber in Augusta, on TUESDAY, the twenty-second day of December next. Attest,

ALDEN JACKSON,
Secretary of State.

The Union of Friday groans through a two-column article, in an attempt to just fy itself and the administration for the shameless abandonment of every democratic promise made to the people of Kansas—and the article winds up with a "dreadfully stirring," "despairing" and dismal groan, extorted by an article in the Whig of Thursday.

The Union was for a long time utterly silent upon the new outrage and swindle to defeat "popular sovereignty," — but being at length advised by "the Doctor" (who holds a comfortable berth at Washington) that the dispensers of patronage and determined to sustain fully the doings of the bogus Convention, it perceived at once what "democracy" demanded,—and is now stoutly defending the iniquity.

The burden of the Union's defence is that there was no law compelling the bogus Convention to submit the constitution to the people—that "technically" it was under no obligation to do so—and as a matter of fact, that is, what the democratic papers find it convenient to consider a fact, the constitution is, aside from slavery, a satisfactory instrument. The people of Kansas, according to the Union, don't know what they want, so well as the bogus Convention knows. That Convention and the bunker administration decides that the constitution is "satisfactory,"—and it is of no use for the people to vote upon it. This is the argument of men who bawled themselves hoarse for the most unlimited "popular sovereignty" so long as it suited their political interests to go so. They now abandon the principle utterly upon a "technicality." This is a sufficient answer to the assertions and attempted arguments which are now published in the Union "by authority" from Washington.

The attempt to excuse the iniquity on the ground that some other States have come in with constitutions adopted by Conventions, is entirely irrelevant to the present issue. It would be enough to say that Constitutions were framed, in the cases cited, by *majority* conventions, which represented the people, as the bogus Convention of Kansas did not even pretend to do. But we do not rest here. The democratic party is now charged with violating its own solemn and *special* promise to submit the constitution of *Kansas* to a vote of the whole people. We have nothing to do with any other State. Buchanan, Walker, Douglas,—the Cincinnati Convention—all the organs of the party—have promised, fully and completely, that so far as *Kansas* was concerned, her people should have the unrestricted right to determine their own institutions, and their own fundamental law, in all particulars. These promises are now utterly violated. Not even on the slavery question are they allowed this right—notwithstanding the Union alleges to the contrary. The bogus constitution, even if adopted "without" the slavery clause, does *not* abolish slavery, but on the contrary, declares that slave property *shall not be interfered with*,—and provides that all slaves which may be in Kansas before the State is actually admitted, and their increase forever, shall be held as slaves; and the Legislature shall have no power to free them. And no man can vote upon the Constitution without taking an oath to support that instrument with this provision included.

Thus we see that the people of Kansas are denied the exercise of popular sovereignty upon any and every provision of their fundamental law. They cannot *abolish* slavery—and upon every other point there is not even a pretence of submission.

We have not space to follow the Union through its labored misrepresentations of the course of the free State men in Kansas. It has thrown itself, body and soul, into the cause of pro-slaveryism, and will of course belie all the doings of the defenders of liberty, and uphold the acts of the border ruffians and their bogus Convention. In a political view we could ask it to do nothing better for the interests of the Republican party. Such a course on the part of the democratic organs would open the eyes of the people (if they needed opening) to the glaring iniquity and unblushing perfidy of the administration and of the "National democracy."

The Union has one paragraph, however, near the close of its article, which is too deliciously innocent or superlatively cool to be lost.—It lays its own judgment out of the case," and most confidingly gives up every position it has heretofore taken in defence of popular sovereignty, in defence of—

"The long experience, the powerful intellects, the stern patriotism and the pure Democracy of such statesmen as Buchanan, Case, Cobb, Toucey, Brown, and Floyd, to us the surest guarantees that we shall fall into no errors by following in their illustrious footsteps. In them there has been 'no wrid blemish or shadow of turning.' They have never made a mistake in their political history.

What a child-like deference is here manifested for these great lights of democracy!—If Buchanan and his cabinet say that it is democratic to force a constitution upon Kansas in defiance of popular sovereignty,—the Union says so too. What a pity it is, though, that the Union cannot now include those once equally reverenced democratic teachers, Douglas, Walker, Benton and Forney. *Their* democracy, unfortunately, is not now the same as that of the White House.

In Buchanan & Co. however, the Union declares there is no variableness nor shadow of turning. The Union sees none—but in view of Buchanan's present position, would not a disinterested observer see a "shadow" of turning from the written instructions which James Buchanan gave to Governor Walker, as follows?

"There are two great objections connected with the present excitement, growing out of the affairs of Kansas, and the attainment of which will bring it to a speedy termination.—These were clearly and authentically stated in the President's recent Inaugural Address, and I embody the paragraphs in the communication, *asking your special attention to them.* It is declared in that instrument to be "the imperative and indispensable duty of the Government of the United States to secure to every resident inhabitant the free and undoubted expression of his opinion by his vote." *This sacred right of each individual must be preserved*; and that being accomplished, nothing can be fairer than to leave the people of a Territory, free from all foreign interference, to decide their own destiny for themselves, subject only to the Constitution of the United States.

"When such a constitution shall be submitted to the people of their Territory, they must be protected in the exercise of their right of voting *for or against that instrument*, and the fair expression of the popular will must not be interrupted by fraud or violence."

I respect Buchanan now says that the people of Kansas must *not* have the right of voting against a constitution prepared for them by a minority convention! They may vote for it but not against it. And yet the Union says "there is neither variableness nor shadow of turning." How strong must be the confidence of the readers of the Union, in its statements of fact!

THE SPEAKERSHIP.—The correspondent of the N. Y. Courier & Enquirer supposes that the Republicans will hold no caucus for Speaker at the opening—but will probably vote for Mr. Blair of Missouri, and that it is not impossible he may be supported by some of the Walker democrats,—or they may unite upon Mr. Hickman of Pennsylvania, who is known to oppose the Administration on its Kansas policy, and with the aid of the Walker force in the House elect him to the Chair.

[Our despatch this morning says a Republican caucus will be held, and mentions Mr Washburn of Mo., as among the candidates spoken of.]

Washington despatches state that Hon. Nathan Clifford's name will be sent to the Senate, for the vacancy on the Supreme bench.

Also that Samuel Ingham of Connecticut, has been appointed Commissioner of Customs in the Treasury Department, vice Gov. Anderson.

Col. Fremont and lady were guests of the venerable Josiah Quincy, at Boston, on Thursday evening. They will remain in Boston a few days.

The estimates of national expenditures for the next fiscal year, to be sent into Congress, amount to $74,054,755. For the army $14,760,000; navy $13,680,000; civil list $10,686,000.

The sum total includes existing appropriations of about $25,000,000, which may be applied to the service of the next year.

A fugitive slave was brought to Brooklyn, NY, on Saturday, having secreted himself on board a steamship Florida, from Savannah. He was kept in charge of officers, to be carried back when the steamer sailed, and it was tried to keep the affair secret; but it came to the ears of Lewis Tappan, and the negro taken on a writ of habeas corpus. McNulty, at whose grocery store the negro had been kept, was arrested for kidnapping. Nothing is definitely known as to the disposition of the case.

In the Menemon Sanford case on Wednesday, the court instructed the jury that as but two only of the proprietors lived within the jurisdiction of the court, their verdict could only concern them, and of these two, there being no evidence that Chas. D. Sanford was on board at the time, they must accordingly return a verdict of "not guilty" so far as related to him.

The verdict, as will be seen by the telegraphic despatch, was against Capt. E. D. Sanford, for manslaughter, but it is to be carried up on exceptions. The penalty in Massachusetts, may be a fine from $500 to $1000.

The proceedings in the case of Seyers, Walker & Seyers, British bankrupts, show how "fast" can thrive on credit in London. They had a capital of £4000, and their transactions were £1,000,000. They changed their personal expenditures by their transactions, and the partners lived at the rate of ten thousand dollars a year. They run up their credit by obtaining advances on goods not paid for by themselves.

The Boston Post descends to very small criticism when it undertakes to be witty over the typographical errors of "country" newspapers. In doing so, moreover, it shouldn't say *Providence* for Providence. We don't find that spelling is any disfigurery—whereas "Center," we believe, has some authority for its ortl ography. The Post grows weak under its Kansas back-load.

We are indebted to Mr. O. R. Patch for late Boston papers.

THE ALLIGATOR'S ENEMY.—An alligator was recently killed near the Balize (mouth of the Mississippi,) which was nearly eaten up by shrimps. It seems that when one of these monsters is wounded ever so slightly, the shrimps at once begin to make their homes in his body, and the colony increases until the little pests actually devour the alligator alive.

"A Youngster" desires to know how guns kick, since they have no legs. He is informed that they kick with their breeches.—*Boston Courier.*

LOCAL AND MAINE NEWS.

ST. JOHN (Episcopal) CHURCH will be open for divine service on Sunday (to-morrow) evening; also on the first Sunday evening of each month.

SABBATH-EVENING LECTURES.—We understand that arrangements have been made for evening religious services at the Third Parish (Central) Church, every Sabbath. Lectures will be delivered by some of the Professors of the Theological Seminary.

UNIVERSALIST CHURCH.—We are requested to state that to-morrow morning, and the first Sunday morning of every month hereafter, will be devoted entirely to the Sunday School in the Universalist Church.

We observe with pleasure that our Postmaster and Collector have a benevolent regard for the heads and shins of the people. The stone steps of the Custom House and the Post Office have been neatly covered with wooden plank-ing, so that they can be easily kept free of ice during the winter. They have heretofore been rather dangerous in the icy season.

The Free School in Penmanship and Book-keeping met on Thursday evening at the Common Council Room,—but the numbers present rendered it advisable to adjourn to the Apprentices School Room on Broad Street, where the School will hereafter be held. About sixty persons were present, including a dozen ladies. The prospect is that this movement will be one of great usefulness. It is desirable that a larger proportion of adult persons should attend.

We call attention to the advertisement of Messrs A. W. Decrow & Co., No. 10 Central Street, where they have recently opened an extensive Stove Warehouse, and offer a large variety of the best stoves now in use, including the Railroad Cooking Stove manufactured by them.

RAISING WORK. We are glad to see some indications of a revival of business. Several manufacturing establishments in Worcester are announced as having resumed work. The Manchester Print Works resumed the manufacture of calicoes on full time, last Wednesday.

Horace Beaty of Biddeford, advertises in the Utica N. Y. American, for a "young lady, possessing in her own right a farm, and wishing a husband to assist her in carrying it on." Have we no smart young farmers in Maine? or has the lady some distant flame in her eye?

HOW NORTHPORT WAS SAVED BY CLAMS.—The Belfast Age, in giving an account of the early settlement of Camden, relates that the early settlers obtained a livelihood by farming, fishing and hunting. The grist mill was resorted to from Union and Belfast, soon after it was erected, from which settlements they settlers used to come and at one load carry the grist of their respective towns. At one time, Robert Miller, of Belfast, was returning in a boat from Camden with a bag of meal, when he went ashore at Northport to get a dinner prepared at a cab n which was there, the only one probably then in Northport. On entering the room, he found a family sick and destitute who had subsisted for a number of days on nothing but clams, and appeared to be in a state of starvation. He shared with them his bag of meal and went home, rejoicing at the privilege of thus feeding the hungry. This incident was commemorated by some poetaster by the following doggerel verse:

"Camden for bounty,
Belfast for pride;
If it hadn't been for clams,
Northport would have died."

Rev. Edward P. Cutler, of Belfast, Maine, has been engaged to supply the pulpit of the Congregational church in Beardstown, Ill., for the ensuing year.

A body, supposed to be that of Capt. Wm. Walsh, of Rockland, who has been missing since the night of Oct. 26th, was found on Saturday, near the wharf in Portsmouth, where it is supposed he fell, overboard while passing to his schooner. It was supposed at the time he was missed that he had $100 upon his person, but it was not recovered with his body.

SUDDEN ACCIDENT.—Mr. James Thompson, a respectable farmer in Letter G, fell from the scaffold in his barn, early one morning last week, and was seriously, if not fatally injured. He was insensible when discovered, and has not had his senses since. It is doubtful if he recovers.—*Aroostook Pioneer.*

Barque Mary J Porter was abandoned in a sinking condition Nov. 21st, lat 33 03 N, lon 75, crew saved and taken to Wilmington, N. C. The Mary C Porter was a good vessel of 220 tons, owned at Waldoboro, Me., in October, 1850, and then called the George D Simonton.

Ship J P Maine, from Liverpool for Calcutta, lost below the latter port, was 1464 tons, built at Bath, Me., in 1854, where she was owned.

Sch Carbon, lost at Ningpo, was a three masted sch of 300 tons, built at Robbinston, Me., in 1851, and reported to be owned in Eastport.

The Alta California states that Mr. John H. Carvin, appears sane on every subject except that he is constantly tormented by a spectral woman, why he says lives in Gardiner, Maine, whom she follows in the business of telling fortunes, and where he saw her several times.—By her first common location, she scared his life, but now she is trying to get him into some difficulty, to destroy him and get a fortune which he hopes to inherit.

A Hint to the Enterprising Boy.—"Here you are, sir, black yer boots and take yer likeness for the small charge of threepence!"

"Do you swear that it don't resemble your writing?" "Well I do—old head." "You take your solemn oath that this writing does not resemble yours in a single letter?" "Y-e-s!" "How do you know?" "'Cause I can't write."

No. Penobscot Ag. Society.

The Annual Cattle Show and Fair of the North Penobscot Agricultural and Horticultural Society, was held at Lincoln Village, on Wednesday and Thursday, Oct 7th and 8th. The weather was very favorable, the attendance large, and the people all enthusiastic.

Our exhibitions have ceased to be doubtful ones. Our citizens are made happier and better by them, and we feel confident that our Society will receive cheerful and abundant support.

The citizens of Lincoln received their guests cordially and ministered unto them generously.

The Town Hall was filled with fruits and vegetables, dairy products, manufactures, and a large display of fancy and ornamental work by the ladies, presenting an appearance highly gratifying to our conservative citizens, who were glad to witness so many evidences of the fruitfulness of Eastern Maine; and pleased in seeing so many articles of skill exhibited by the ladies,—evincing the fact, that, in addition to producing an abundance of life, we find time to produce and enjoy luxuries, unattainable by the same classes in the far West.

The exhibition of stock was good, and the hauling, both by oxen and horses, will be found hard to beat.

An impromptu Farmer's Debating Club held an interesting discussion at the Congregational meeting-house, on Wednesday evening, at which was expressed an universal sentiment that Maine is a good and desirable State to live in.

A STEAMBOAT RUNNING DOWN A WHALE.—The Sacramento Union relates the following curious incident of a steamer in collision with a whale:—

"On a recent trip of the steamer Columbia from Oregon, an unusual number of the species of whale known as thumpback, were observed sporting in the neighborhood of Humbolt Bay. The steamer with wind and steam fair in her teeth, was running at the rate of ten or twelve knots an hour, when, says a passenger, a huge whale raised to blow within a half of the ship's prow, its body lying at right angles with her course of sailing. Full thirty feet of the monster's back might have been exposed, and all were expecting an collision when Mr. Fish sank almost like lead; but not quick enough to save his bacon, for he was not at sufficient depth to be out of reach of the ship's bottom. When the fish rose, the water for some distance around was expanded with its blood. Though with diminished force, the ship struck with considerable violence, turning the monster completely on its beam ends, in which position it came to the surface, on the larboard side, and just in time to receive another thump from the steamer's paddle. But it was not killed, for it was seen making its way towards the land some moments after."

POLITICAL WISDOM OF THE UNION.—Our neighbor, who claims to be so wise in all his political statements has the following in his long article of yesterday.

"Too long have the members of the Administration and Douglas and Walker fought side by side in the Democratic ranks. Through their lives long, on all political questions affecting the dearest interests of their beloved country, there have been *no differences of opinion*. Duty, patriotism and fidelity to the Constitution will prescribe to them all one path to pursue, and they will all walk together through present and all future difficulties."

And yet in the very same number of his paper, the editor prints the following as a telegraphic despatch:—

WASHINGTON Dec. 3.

Judge Douglas and the President to-day had a full and free interchange of opinion on the Kansas question *without, it is understood, being able to arrive at the same conclusion.*

Senator Douglas stands, he says, on the principle of the Nebraska-Kansas Bill, which guarantees that each State and Territory has the right to regulate their domestic institutions to suit themselves, and will follow that principle wherever its logical consequences may carry him, defending it against all assaults, *from whatever quarter they may come.*

He considers the Lecompton movement directly violative of the principles of the Kansas bill and the Cincinnati Platform.

TOUCH THEWHENS. "When I lived up in Maine," said Uncle Ned, "I helped to break up a piece of ground; we got off the wood in the winter, and early in the spring we began ploughin' on't. It was so consarned rocky that we had to get for a yoke of oxen to one plough, we did, faith, and I hold the plough myself most a week—I thought I should die. It 'most killed me, I vow. Why, one day I was hoein', the plough hit a stump which measured just nine feet and a half through—hard and sound white oak; plough split in, and I was going straight through the stump, when I happened to think it might scrape together again; so I threw my feet out, and had no sooner done so, than it snapped together, taking a smart hold of the seat of my pantaloons. Of course I was tight, but I held on to the plough handles, and though the teamsters did all they could, the team of 80 oxen couldn't tear my pantaloons, nor cause me to let go my grip. At last though, after letting the cattle breathe, they gave another strong pull together, and the old stump came out about the quickest. It had monstrous long roots, too, let me tell you. My wife made the cloth for them pantaloons, and I haven't worn any other since. The only reply made to this was—'I should have thought it would come hard upon your suspenders.' 'Powerful hard!'"

An extraordinary fight between a lion and a tiger in a menagerie is mentioned by a late English paper. The tiger was only eighteen months old, but of very large size; the lion was said some six or seven years. It happened as follows:

The attendants had all left the menagerie to go to breakfast, when suddenly those in the carriage which the proprietors occupy were alarmed by an unusual outcry among the beasts. They soon discovered the cause. The tiger had burglarious y broken through the side of partition dividing his den from that of the lion, and had the latter in his terrible grasp. The combat which ensued was a terrible one. The lion acted chiefly on the defensive, and having probably been considerably tamed by his three years' confinement, the newly imported tiger had this advantage. His attacks were of the most ferocious kind. The lion's mane saved his head and neck from being much injured, but his savage assailant at last succeeded in ripping open his belly, and then the poor animal was at the tiger's mercy. The lion was dead in a few moments. The inmates of every den seemed to be excited by the conflict, and the howling might have been heard a quarter of a mile distant. Of course, the men could not interfere while the conflict lasted, but when the tiger's fury had partially fed, they managed to remove the carcass. He must have used his paws as a kind of battering ram against the partition, as it was pushed in rather than torn down."

A newspaper correspondent writes, that a verdant Yankee expectant for office was advised the other day to apply for the consulship at the Lobos Islands, *vice Guano removed.* He has his letter written before he discovered the joke.

A Keto American editor, who has gone over to the locofoco side of politics, complains of "a vio on man in the reg on of the left auricle of the heart." Perhaps *to lies is much on that side.—Louisville Journal.*

P. K.

TO THE AFFLICTED.

I deem it a duty I owe to society, especially to the afflicted, to offer this testimonial in favor of that estimable medicine—"Perry Davis' Pain Killer." When passing through Galena, some two weeks ago, I purchased at your agency a 25 cent bottle. I was then suffering from a severe bruised hand. I applied it in the store, and was astonished at the almost instantaneous relief. Before I left the store the inflammation was removed, and in less than an hour the pain ceased. In two days my hand was well as ever. Finding it to be really a remedy I determined to try its effects as a curative for the Piles; to which I have been a martyr for years. After five or six applications my piles were among the things that had been. I am now entirely free from them, and for as good health as ever I was in my life. I have recommended the Pain Killer to others, and always with good effect. Several of the captains of the upper river boats carry with them a constant supply, and consider it one of the most valuable medicines ever discovered.

I am, dear sir, respectfully yours,

JOSEPH O. MARTIN.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

WASHINGTON, 4th.

The constitution framed by the Lecompton Convention is warmly approved by Senator Digler, and other prominent Democrats. All though Senator Douglas has freely expressed himself against the Lecompton movement, the opinion is current that he will not place himself in direct antagonism to the administration.

The appearances are that the House will effect an organization on Monday without trouble. The contest is warm for Postmaster, Bookkeeper, and Printer.

It is now contemplated to send the Message in advance only to New York, Philadelphia and Richmond. A decision in the matter will probably be arrived at to-morrow.

It is understood that a Republican caucus will be held Monday morning. Mr. Grow of Pa, Mr. Blair of Missouri, or Mr. Washburn of Maine, will probably be nominated for Speaker. The present intention is to make no other nominations.

INDIANAPOLIS, Dec. 4.

About eight days since the agents of Dr. Vallendingham of Frankfort, Ky, captured a fugitive slave at Naples, Ill. When en route to Kentucky the negro was taken under a writ of habeas corpus before Judge Wallace, who liberated him. He was immediately re-arrested and taken before U. S. Commissioner Lee, who, after hearing the case, decided that the negro should go back to slavery. He was again arrested on a writ of habeas corpus, issued by Judge Wallace, before whom some questions of State sovereignty are now being discussed.

It is claimed by the negro's counsel that he is free under the fugitive slave law and Dred Scott decision as well as the State Constitution.

Meanwhile Dr. Vallendingham has been arrested on the affidavit of the negro for kidnapping, and his case is now in progress before Mayor Wallace.

ALBANY, Dec. 4.

The Canal Commissioners here to-day, at a meeting, decided to close the New York State Canals on Thursday the 10th inst, unless sooner closed by ice.

LOUISVILLE, 4th.

The seven prisoners accused by Miller of the murder of Craddock have been discharged. Miller's testimony occupied two days. The other defendants proved an alibi, and the Justice held Miller on his own confession.

New York Markets.

NEW YORK, Dec. 4.

Freights unchanged.

The Illinois papers publish a call for a meeting of the cultivators of the Chinese sugar cane in that State, to be held at the office of the State Agricultural Society in Springfield, on the 7th day of January. The Springfield Journal says that the growing of the sorghum and the expression and manufacture of its juice into syrup has been highly successful in Illinois in the season just closing.

THE ANDROSCOGGIN PIONEER.—We have received the first number of a handsomely printed and well filled paper with this title, published at Presque Isle by W. S. Gilmar & Co. It is edited by our old friend Joseph B. Hall, and exhibits much ability. It is a family and general newspaper, devoted to the interests of that important and growing section of the State. It is the most northern paper in the Union.

RAILROAD MATTERS.—Under the present careful and economical management of a number of the railroads running out of Boston, fair semi-annual dividends are expected in January, next with the partial lessening of business.—It is thought that the Boston and Worcester, Boston and Maine, Fitchburg, and also the Boston and Providence, will pay three per cent; the Boston and Lowell probably two and a half.

The Pennsylvania Buchanan papers intimate pretty distinctly that Forney is "a false friend," in fact not much better than an—Abolitionist.

Removal.

E. T. PLAISTED, M. D.

Physician and Surgeon,

Has removed his Residence and Office to Hammond Street, nearly opposite the Hammond Street Church where he may be consulted at all hours, unless otherwise professionally engaged.

Dr. P. will continue to pay particular attention to the cause of the Deaf. Those of the Lungs, Throat and Heart. Two years almost exclusive attention given to those diseases, is how the most unusual German physicians in Philadelphia, and the Borough Knowledge of the writers of Auscultation and Percussion, enable him to detect the slightest deviation in these organs from their healthy condition.

His experience and success in the treatment of all long difficulties, especially, give great confidence in his ability to give most entire satisfaction to all who may require his services.

Patients coming from a distance, wishing to remain any length of time under his care, can be accommodated with apartments at his residence.

WORCESTERSHIRE SAUCE.

PRONOUNCED BY CONNOISSEURS TO BE THE *Only Good Sauce*

AND ONE OF CAMILA TO EVERY VARIETY OF DISH.

EXTRACT of a Letter from a Medical Gentleman at MADRAS TO HIS BROTHER Worcester, May, 1851.

"Tell LEA & PERRINS that the Sauce is a delicious relish in India, and is, in my opinion, the most valuable, as well as the most palatable of all sauces."

Thereby obtained award at the Great World's Fair Exhibition of Industry of all Nations, was awarded to LEA & PERRINS for their WORCESTERSHIRE SAUCE, the world-wide fame of which having called forth numerous spurious imitations, they consider it right to give notice that the names of "LEA & PERRINS" are impressed upon the Bottles and Stoppers, and their Signatures on the Wrappers and Labels.

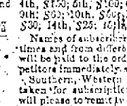
FLOUR,

Wheat Meal & Shorts.



The subscriber has commenced manufacturing FLOUR in one of the Mills of the Growing section of the West. His purchases of wheat are made by agents, going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly Cleaned before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unsalted wheat meal, and in shorts. A car load, 100 Cks, will arrive, weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles of its sweetness as is the case with nearly all the wheat manufactured in the large establishments of the large markets.

Dealers can be accommodated with a weekly supply on favorable terms. Upon application to the subscriber, Office No. 29 West Market Place, Samples may be seen at the Stores of JOHN McLAUGHLIN, No. 49 West Market Place, O. D. To Mechanics, Inventors, and Manufacturers.

IN connection with the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the 1st of January, 1858, and premiums to be distributed as follows:

For the largest list $300; 2d, $200; 3d, $100; 4th, $75; 5th, $50; 6th, $40; 7th, $30; 8th, $20; 9th, $15; 10th, $10; 11th, $10; 12th, $10; 13th, $10; 14th, $10; 15th, $10.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of January, 1858.

Scientific American and Canada money will be taken for subscriptions. Canadian subscribers will please to remit in *sixty-six cents extra* on each year's subscription, to prepay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates—Five Copies for Six Months, $4; Five Copies for Twelve Months, $8; Ten Copies for Six Months, $8; Ten copies for Twelve Months, $15; Twenty Copies of Twelve Months $23.

For all Clubs of Twenty and over the yearly subscription is only $1,40.

The new volume will be printed upon fine paper, with new type.

The general character of the SCIENTIFIC AMERICAN is well known, and, as before, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work*, and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains about from 500 to 600 finely executed Engravings, and thousands of interesting and useful practical improvements, together with an Official List of American and Foreign Patents published weekly in advance of other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combatting and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia, of useful and entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the only line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin, $1.25
Fare on Deck, 1.00

Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value. L. BILLINGS, Agent.

Alpine Hair Balm,

—FOR—

Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling out, composed of Oils, Alcohol, and other deleterious materials, and all to no use. Hair dyes have been introduced that do not give the hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article but would be the exact remedy, and after seven years trial has perfected this Balm. It is soothing and emollient, allays all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff, and Scurf, and when the hair has turned gray it will bring it back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair dyed. If you examine gray hair that has been colored for a week, you will find, towards the roots, that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube, through which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease.

DR. SANFORD'S

INVIGORATOR,

OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purposes of any cathartic without the debilitating effects experienced from most purgatives. It acts slowly and gently, but surely, moving the bowels to carry off all the secreted matter, at the same time stimulating the *Liver* to a proper performance of its functions.

The Invigorator cures Sick Headache. Take one or two teaspoons full at the first attack, and it will soon disappear. For an overloaded stomach, or when food rises or sours, take the Invigorator after eating, and it will not prove disagreeable or oppressive. For Heartburn, Palpitation, or Difficult breathing, take a tea-spoonful once or twice daily. For Loss of Appetite, Languor, or Listlessness, the medicine is invaluable. It will restore the appetite and make the food digest well. Nightmare, take a teaspoonful on retiring, and the demons of dreamland will all be far off. After eating a hearty dinner, take a dose of Invigorator, and it will relieve all oppressiveness or fullness. The Invigorator is a Liver Remedy of unequaled virtue, acting directly on that organ, curing Dyspepsia, Jaundice, Bilious Attacks, Dysentery, Piles, Worms, and all Female Obstructions, for which it has no equal.

We know there is nothing now before the American public, prepared with such skill by a scientific man, particularly for diseases of the Liver, as Dr. Sanford's Invigorator, or Liver Remedy. It has attained a reputation second to no other article in the world, simply because it rests on its own merit. To convince all by trial that it is all that its proprietor claims it to be, if any of our readers are suffering from any such diseases as are described in Dr. Sanford's advertisement, we know of no remedy that will so surely cure them as the Invigorator.

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in Diseases of the Liver, Stomach and Digestive organs. It came to us with so many testimonials in its favor that we have noted its effects in some of the worst cases of continual debility, caused by deranged liver, and in every instance the effect was to relieve or give a permanent cure. Dr. Sanford's Liver Invigorator is what we refer to. We always have been credulous about cures by patent medicines; but we are convinced that this medicine, for family use, is not overrated by the hosts who recommend it. Our advice is, to all troubled with Indigestion, Debility or Bowel Complaint, to get a bottle and try it; our word for it, relief will be experienced.

Blessings to the Invalids who use Dr. Sanford's Invigorator, for it will relieve them of the pains as soon as it is taken into their stomach. Pain and misery cannot exist where the Invigorator is used, for it will surely drive them away, as daylight will banish darkness—of this there can be no doubt to those who try it, for it carries conviction with every dose taken. Another evidence is, the thousands of certificates from those who say it have been cured by it. Try one bottle—if it does not benefit, then we are mistaken.

METALLIC PENS.—The best made, at D. BUGBEE & CO'S.

DR. SANFORD'S

INVIGORATOR,

or Liver Remedy.

THIS IS ONE OF THE GREATEST SCIENTIFIC Medical discoveries ever made, and is daily working cures almost too great to believe. It cures as if by magic, even the *first dose giving benefit*, and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst Jaundice or Dyspepsia to a common Headache, all of which are the result of a Diseased Liver.

The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions. When the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the diseases of that organ one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with Liver Complaint in any of its forms, has but to try a bottle, and conviction is certain.

A compound has been formed by dissolving gums and, extracting that part which is soluble for the active virtues of the medicine. These gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the causes of the disease, and effecting a radical cure without any of the disagreeable effects felt by using Calomel or Mineral poison, that are usually resorted to.

To all who will follow these directions a cure is positively guaranteed. Sick Headache can be cured by the use of two tea spoonsful, taken as soon as the attack is felt.

The Invigorator *never fails* to cure sour stomach or the bad effects experienced after eating.

Bilious attacks yield readily to one bottle, and Chronic Diarrhœa, so difficult as it is to cure, is never troublesome to those who take the Invigorator.

For Dyspepsia or Jaundice, nothing in the known world acts so fully or cures so quickly as the Invigorator. It removes all yellow and unnatural color from the skin.

For Night Mare, take a dose before retiring, and it is warranted a sure preventive.

For Female Obstructions it is a safe and sure remedy, as it removes the cause of the disease.

Costiveness cannot exist where the Invigorator is freely taken, while Cholic yields readily to a few doses.

It must be known that all these are *Liver* diseases, or caused by a deranged *Liver*, and to cure them needs a LIVER medicine, and one of great power.—The Invigorator is such a medicine; it has medicinal powers, never before discovered, that will cure all diseases of the *Liver*, no matter of how long standing, or what may be their form. The active medicinal virtues extracted from the gums used is such as to be astonishing to all who see their effects, for none can use this medicine without receiving benefit. It acts as a gentle cathartic, and should always be taken in sufficient quantities to operate on the bowels gently. The best way to take it is to take the medicine in the mouth, then take some water and swallow both together, in this way the medicine will scarcely be tasted.

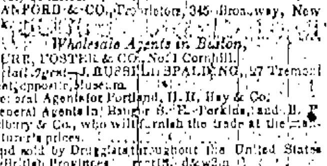
GRINDLE'S

ANCIENT AND CELEBRATED



JAPANESE LIFE PILLS.

NATURE'S OWN REMEDY.

A positive Cure for Liver Complaint and Bilious Disorders, Dyspepsia, Rheumatism, Scrofula, Cutaneous Diseases, Fever and Ague, Costiveness, Dysentery and Diarrhœa, Worms, Suppression of the Menses, Nervous Debility, &c.

FOR a long time we have been compelled to witness with painful emotion, the many adulterated and life destroying drugs made into pills and liquid medicines, and patients using them without knowing their injurious effects upon their system. This *monstrous evil* may now be entirely escaped by using only these ANCIENT JAPANESE LIFE PILLS and our MAGIC COMPOUND. For many years we have labored hard to find a cathartic which, while it purged, would *throw out disease* and not *mere secretions alone*; would *renovate and strengthen*, and not *deplete and weaken the system*.

We now unhesitatingly say, that this so much sought for remedy—a cathartic of mild and pleasant operation, actually throwing out *disease* and not simply *secretions*, thoroughly purifying the blood, and *immediately* strengthening the system—has been found. They will not only relieve but *positively cure* every disease for which they are recommended. These Pills have stood the test of the ingenious Japanese Faculty for centuries, and the same kind of ingredients, that composed the Pills at that ancient time are continued to the present day.

No medicine except our MAGIC COMPOUND ever met with such unbounded success in so short a time, and the thousands of orders pouring in for them from all parts of the country, is wonderful and astonishing. The number of these PILLS being used by females alone for their various complaints, constitutes in itself an immense trade.—They are not the "*female pills*," so much puffed into public notice, which, instead of curing, produce cruel and dangerous complaints, but are for male or female, old or young, and cure by acting directly on disease.

The PILLS are sent by mail, from the Proprietor only, on receipt of the price. The postage in the United States, not over 3000 miles, is fifteen cents on five boxes, which must be inclosed in money or stamps. We are responsible for all moneys sent us by mail.

Dr. Wesley Grindle's

CELEBRATED

MAGIC COMPOUND,

—THE GREAT—

Remedy for Pulmonary Consumption.

Also, an effectual cure for Scrofula, Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending on an impure state of the blood.

THIS WONDERFUL REMEDY has done more to alleviate human suffering than all other means put together. It has the greatest sale of any medicine in the world for *Pulmonary Complaints*, from Maine to the most retired dwellings of Oregon, for wherever Consumption is known, it finds its way, carrying health and joy into thousands of families. The most eminent physicians have been forced to acknowledge that it *does* cure consumption, and they now use it in their practice as a standard and sure remedy.

There is no remedy equal to it in building up a system, that, under the influence of various diseases, hardships, or exposures, has run down or lost its natural tone and vigor. Its great secret is in its power to reach the blood, correct the vitiated fluids, and arrest the deposit of tubercle in the lungs; and it is as *safe* as it is *certain* in its action.

Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask, Can our medicine restore a portion of lung that disease has entirely destroyed, leaving a cavity? We answer, certainly not, neither is this necessary in order to effect a perfect cure. If the treatment be commenced in season, but little or no portion of the lung is lost. It is necessary only to *arrest* the disease, and when this is done, the concrete substance deposited in the tissues of the lung, technically known as tubercle, becomes absorbed, leaving, perhaps, a little calcareous substance which is quite harmless, and the patient finds himself in possession of whole lungs and sound health. But suppose the disease is not arrested at its early stage; The softened tubercle produces irritation; the irritation brings on inflammation of that part of the lungs, the inflammation leads to ulceration, and the destruction of a portion of the tissue is the result; a cavity is formed which enlarges and does its work of death, unless the deposit of tubercle is arrested. Now, does your remedy effect a cure? *Most assuredly it does.* As soon as the disease is arrested, the hurtful matter is absorbed or expectorated, and nature either furnishes the cavity with a lining membrane, or what is more common, where it is of large size, its walls fall together and heal up, leaving a scar, and the remaining portion of the respiratory apparatus, true to a law running through the whole physical economy, becomes somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost.

Prices.—One box $3,00; three boxes ordered at one time, $8,00; half dozen, $14,00; one dozen, or any number greater, at the rate of $2,00 a box.

The postage in the United States not over 3000 miles, is fifteen cents a box; over 3000 miles, fifty cents a box. In all cases the amount should be inclosed in money or stamps. I am responsible for all money sent me by mail.

It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee*," may be relied upon as the *genuine article*. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article called Taraxacum in the market.

To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock, and our prices, as compared with those of any other house.

American & Foreign Patents,

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under Act of 1837,)

76 State Street, opposite Kilby-st, BOSTON.

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same.—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents.—There were few, if any, persons acting in that capacity who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

"AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON, Comm'r of Patents.

STOCK.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to, every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and food of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted, in the size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

For hives, individual rights, &c., address R. B. TORREY, feb18 d&w Fifth-street, Bangor.
